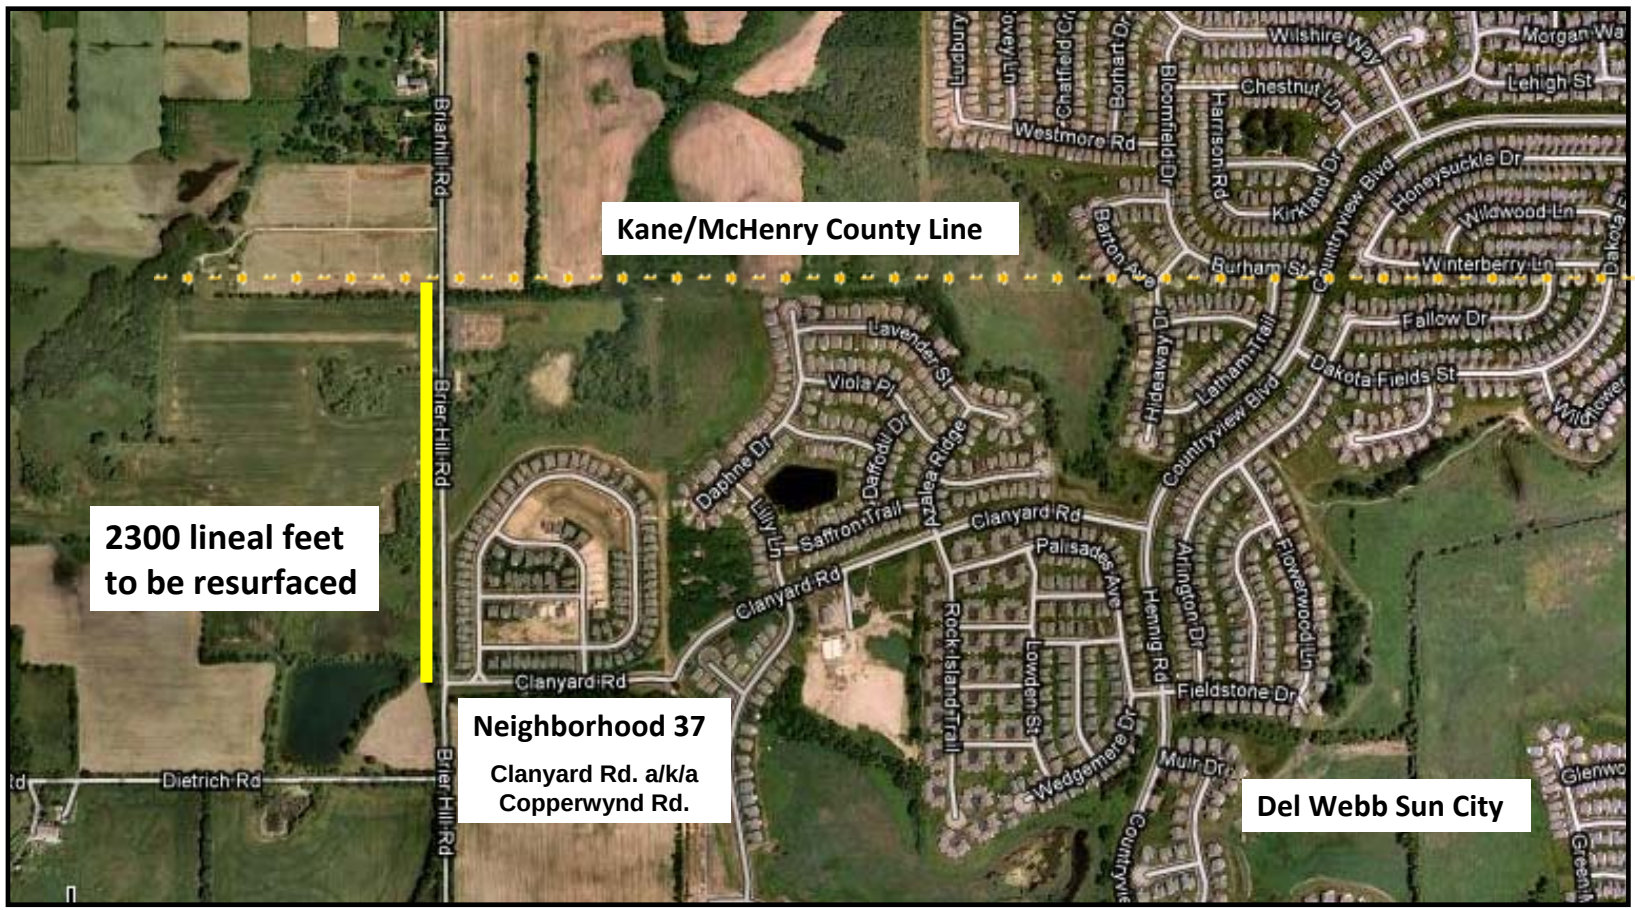
Brier Hill Resurfacing Project

When the Final Plat of Subdivision for Sun City Neighborhood 37 was approved in 2006, the Village collected funds for future Brier Hill Road improvements. Both townships (Coral and Hampshire) have resurfaced their sections up to the Village's section.


The road is in need of maintenance; the Village will begin the resurfacing of this +/- 2,300 lineal feet of Brier Hill Road on or about April 19, 2010.
