12"	\$21439.00	\$22,146.00	\$22090.00	\$22,819.00

To be increased by \$1,000 per 1/2" increment from 12"

Fee is based on the size of the tap made at the main that provides the domestic water service to the building.

*1" is the minimum size allowable for domestic service to any building.

** 6" is the minimum size allowable for any fire service.

The meters and backflow devices are to be installed by the owner and their plumbing contractor.

Water meters, up to 2", will be purchased from the Public Works Department.

EFFECTIVE DATE 05 / 01 / 06
