

50/50 Residential Tree Replacement Program

UPDATED: July 14, 2009

ASH TREE/EMERALD ASH BORER INFORMATION: The Village arborist is currently re-inspecting the Ash Trees on residential parkways within the Village which have shown signs of infestation by the Emerald Ash Borer. Once this is completed, those residents with Ash trees on their parkway will receive, via US Mail, written notification of the status of their Ash Tree. Information will also be included about options for removal and replacement of your parkway tree through the Village's 50/50 program. This information will be sent out in late July.

DEAD/DYING TREES IN THE PARKWAY: If you have any dead or dying trees in your parkway, please call the Huntley Tree Hotline at 847-515-5223 and leave your name, address, and subdivision and our staff will inspect your tree. Once the inspection is completed you will receive, via US Mail, information regarding the 50/50 program. This information will be sent out in late July.

THE 2009 50/50 TREE REPLACEMENT PROGRAM: Properties that qualify for the 50/50 Parkway Tree Replacement Program will receive an order form with the choices of trees for this planting season. This information will be sent out in late July. Orders will be filled on a first-come, first-served basis until the budgeted funds are expended. Trees will be planted in late September or early October.

**If you have any other parkway tree questions,
please call the Tree Hotline at 847-515-5223 and leave your name,
phone number and a short message and someone will return your call as soon as possible.**
